REVERSED CURRENT

The big surprise of the day's imony came with the declaration of A. Bailey of Sacramento, flood engineering, that for as er in the Sacramento river at the mouth of the American river, near with the tide at a rate of two feet mony of a reversed current so far upstream and, peculiarly, was volunteered by a witness for the rice growers. It was hailed with delight the attorneys for Antioch and the murderers of Jacob

Thirty-six additional demurrers to the complaints in intervention were filed today by rice men in the uparation and additional demurrers s are comi each day. Testimony of witnesses will be finished within a few days and the argument, which may take two weeks, will start.

DRY SEASON GIVEN AS CAUSE OF DROP

It has been shown by reports filed that the flow of the Sacramento and tributary rivers in January for the past 15 years has averaged 45.744, while that of January in 1920 was 7930. The 15-year average for February was 51,751 against 8138 for last February. Four dry seasons were given by the engineer as the cause of the drop, and the records. were filed by the rice men. It was testified that the January record of this year was the lowest in seventy years of observation.

The crop statistics filed represent the first attempt at a comprehensive survey made of the delta. They show nat there is a total of 285,539 acres farmed in the two deltas, 169,880 in the San Joaquin and 115.659 in the Sacramento. Grain, potatoes, asparagus, corn, beans and fruit are among the leading crops with no Masked Man Shoots figures available on the enormous

That dry seasons and not water diversions up-stream have been the ause of the penetration of salt water to the delta communities, and that there is also a large diversion of water in the delta Itself, it would apneys for the rice growers.

SAVED GALLOWS BY TWIN BIRTH

OTTAWA, Ontario, Sept. 30 .-By giving birth to twins while in prison Mrs. M. Gagnon, a convicted

murderess, has saved her own life.

She was to have been executed at Quebec tomorrow but a cabinet council today commuted her sentonce to life imprisonment. Mrs. Gagnon was found guilty of mur-

dering her step-daughter by torture. The medical authorities re-ported to the government that the babies who are now two months old, would suffer in health and perhaps die if their mother was taken from them.

MRS. MARY BOWEN GAINED 15 POUNDS

'Finlac has built me up to where I feel like an entirely different person—said Mrs. Mary Eowen, of 265 impley St. Sin I rancisco, Calif, who in relating her remarkable experience with lanke also reports a gain of fitnen pounds in weight. My fronties staited a little over four years are with severe headables which kept coming more frequently and getting worse until it not to where they kept me in hed for two ard three days at a time. I lost envery mouthful I ate lay like head in ny stomach was so upart every mouthful I ate lay like head in ny stomach and bloated me up with has and kept me feeling miscrable all the time, and I suffered every much from costipation. This has crowded into my chest and around my heart until I nearly suffocated and my heart palpitated like it was going to jump out of my hody. "I had awful weak, sinking spells and was so nervous I would tremble like a leaf at any little unexpected noise. I would be awake at night by the hour and sometimes went through night after night never getting I wink of sleep. I spent nearly half my time in hed and no one knows the miseries I suffered.

But in a very short time after I started taking Tanlac I saw a change. half my time in hed and no one knows the miseries I suffered

But in a very short time after I started taking Taning I saw a change for the better in my condition, for my appetite picked up, my digestion got better and those headsches didn't bother me so much. So I went right on taking it and now I can eat just anything and everything I want without suffering a particle afterwards.

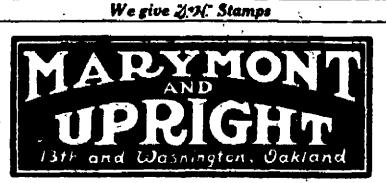

Those awful beadach's are gone my nerves are sleady as a clock. I sleep like a healthy child at night and wake up feeling fine. I have gained fifteen pounds in weight and have been built up so wonderfully in every way that I simply cannot find words to fully express my gratitude.

Informer Flees As Reward Is Brought

SACRAMENTO, Sept. 30 .-- A warant for the extradition of Jem P. Smith and Charles Guthrie, under arrest in San Francisco on a charge of stealing diamonds and Liberty bonds alued at \$35,000 from R. P. Daniels Jucksonville, Fla., attorney, was signed yesterday by Governor Wiliam D. Stephens.

The hearing developed that the lew to the whereabouts of the two ouths was furnished by Lee Quimby, irrested some weeks ago on a burg ary charge. He informed a Sacra mento detective of having seen Smith and Guthrie with the valuables in San Francisco.

Quimby later escaped from the detention home. Attorneys Daniels who accompanied the detectives west made inquiry for him with the idea of giving him a reward but was told by local officers that his present whereabouts are unknown

30 BUILDINGS IN IOWA HILL RAZED IN FIRE

SACRAMENTO, Sept. 30-Iowa Hill, an old mining town in Placer county about eight miles north of Colfax, was practically wiped out by a fire yesterday. No estimate of the loss is available.

The fire started from a defective flue in the home of C. I., Schwab, postmaster and store-keeper in the place. Twenty-six houses were burned. Two abandoned hotels and two saloons were also destroyed.
In the fifties Iowa Hill was a

mining camp of considerable importance. In recent years, with the gold gone, the place has been practically a deserted village. CUT IN CANNED MILE.

Olive Growers' Loss Prevention Planned

SACRAMENTO, Sept. 30.-In an ffort to avert a threat of a loss of millions of dollars to the olive growers of California, Governor William D. Stephens has announced the appointment of E. J. Lea, director of the State bureau of food and drugs. to attend a convention of dairy, food and drug association officials to be held in St. Louis, to demonstrate 🕏 sterilization process recently adopted in California to destroy all danger

of botulism poisoning. Publicity, which will attend the meeting, is expected by the govertor's office to aid in combatting the belief in the East that it is dangerous to eat the California olive.

Lea recently perfected the treatment of olive by products through which sterilization is assured.

Nervous Breakdown

"I am so nervous it seems as though I should fly"-"My nerves are all on edge"—"I wish I were dead." How often have we heard these expressions or others quite as extravagant from some loved one who has been brought to this state by some female trouble which has slowly developed until the nerves can no longer stand up under it. No woman should allow herself to drift into this condition without giving that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

Read the Letters of These Two Women.

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had days every mouth. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."— ELIZABETH WEAVER, R. R. 2, North

Minneapolis, Minn.-"I was run down and nervous, could not restat night and was more tired in the morning than when I went to bed. I have two chilsuch terrible pain in my back, lower dren, the youngest three months old part of my body and down each side and it was drudgery to care for them that I had to go to bed three or four as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I feit like a new woman, full of life and energy. It is a pleasure to care for my children, and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."—Mrs. A. L. Miller, 2683 E. 24th St., Minneapolis, Minn.

MOTORISTS GIVEN MANY THRILLS ON BIG PARK HIGHWAY

DENVER, Sept. 30. — Motorists seeking the unusual in travel will find it next summer wearing overcoats and furs on the night of the hottest day in July, crossing the Continental Divide while making the 5590-mile circle swing of the National Parw-to-Park Highway, the longest scenic motor way in the world.

That's what members of the official party now dedicating the highway, which traverses nine western states and connects twelve major national parks, have experienced since they left Denver August 26. The party will return in time for a convention of the National Park-to-Park Highway Association here Nowember 11.

The wonder highway is like a scenic running noose, and by following the lariat, the motorist reaches the historic ruins of cliff dwellers in Mesa Verde park, or the "Top of the World" in Rocky Mountain park, in Colorado, Starting from Denver, the highway touches Rocky Mountain park before entering Wyoming, where it passes through Yellowstone. In Montana, its course reaches to the extreme northern boundary, touching Glanier Park, then crosses through Idiaho to reach Mount Rainier park, in Washington. The highway continues through Oregon and California and completes the rough circle lariat by winding through Arizona. Northern Arizona and Colorado, getting back to Denver, the starting point.

VISITS TROZEN FIELDS
In the course of the circle which

In the course of the circle which the highway describes, the motorist visits the frozen ice fields in Glacier park, Montana; snow-capped Mount Rainier in Washington; an extinct volcano in Crater park, Oregon, and an active volcano in Lassen park, California. Giant redwood forests in Yosemite and Sequoia parks in California and the Grand Canyon in Arizona, also are included in this park-

fornia and the Grand Canyon in Arizona, also are included in this parkconnecting highway.

The National Park-to-Park Highway Association was formed to sewire the improvement of the dozen
transcontinental highways and connecting roads forming the park-topark highway, includin the Yellowstone-Cladier Bee Line, Roosevelt,
National Parks, Old Trails, Rainboy
and Yellowstone trails. The association hopes, eventually to secure
federal aid in the sum of \$100,000,000 for hard-surfacing this continuous highway. The only stretch of
hard-surfaced road at present is
1000 miles of the Pacific Highway,
extending from Seattle to San Francisco.

Guaranteed F. & C. \$6 Hats, SUFFERING suitors! Suppose the One and Only Girl greeted you with a pack of wolf-hounds in the parlor! Not so good—this love-me-love-my-dog stuff—eh? Feeding a pack of houn'dogs all your life doesn't bat ace high! Then why put up with just that sort of thing in buying clothes? Why feed the middleman, the traveling salesman, the ground-floor rent collector, and the man who sells costly mahogany fixtures, when you buy a suit of clothes?

We cut those extras out—always have done it—always will. It means a saving of \$10 to \$20 on each garment. We make these clothes ourselves, for Foreman & Clark stores from coast to coast. You can't buy F. & C. clothes anywhere else. We jump right over the middleman and traveling salesman. Then we shave down our retail profit to an average margin of 56c on each suit or overcoat! By selling \$10,000,000 worth of them each year, we can afford to do it! The fall and winter stocks are finer than ever—see them now!

Trade Upstairs and Save S10

That's our slogan, but \$15 or \$20 is usually your saving, thanks to our 5 money-saving reasons.

Pound for Pound Canned Meats are Cheaper

Council Corned Beef

for example

is made from choice cuts of lean Government Inspected Meats; mildly cured in salt pickle; neatly trimmed free of every bit of extra fat and bones-the fat and bones you pay for but do not use when you make your corned beef at home. Corned beef is a good wholesome body building food, and Council Corned

Beef is the best you can get and costs less than when home made.

VERY time you buy uncooked meat you pay for bone, fat and skin that you can't eat. This waste runs from one-sixth to onehalf of the cost of the meat.

When a can of Council Meat reads "12 ounces," it means 12 ounces of prime solid meat, no bone, no fat, no waste-and the 12 ounces is the weight after it is cooked.

Every piece of meat packed in a Council Meat can is selected, fine, fresh meat. Council Meats are cooked and packed in big sanitary kitchens right out in the open farm country.

Don't spend a lot of unnecessary time in a hot kitchen over a hot stove. Buy your meat ready cooked and save yourself as well as your money.

There is a large assortment of Council Meats -they will provide breakfasts, dinners, luncheons, in wide variety—at a very little cost.

MADRID, Sept. 80 .- The serenos watchmen-of Madrid flattered by the announcement that London is about to follow the example of Spanish towns and organize a corps of guardians and keyholders in order to pre vent burglaries.

Since the year 1798 the corps of renos has existed in Madrid. From 10 o'clock at night unit. 7 in the morning in winter and until halfpast 6 in summer the serene is on duty around every block of houses in the city. Citizens arriving at their house doors after 10 in nearly all cases find them closed and as it is unusual to carry the key—gen-erally of inconvenient size—they are compelled to call the watchman. This is done by clapping the hands. a call which brings him to the scene with his lantern hanging on a kind of lance and the keys of all the houses hanging in a bunch.

In most instances he knows the occupants of the houses and he precedes them to their flats if they have not the apartment key in their pocket, or gives them a small taper lighted from his lantern to light them up the stairs if they do not

need his master-key. The payment is small, usually 2 cents for a pedestrian, but double that amount for persons arriving in a carriage. Boarding-house keepers generally pay so much monthly to the sereno.

The custom of the sereno calling out the hour and weather through-out the night has died out in Madrid but continues in the country.

Here's a chance to get the water-works turned off, I hope it's somebody that's game enough to stand a bird and a bottle to liven things up a little. Tell you the truth, this little girl made me tired. A rubber plant likes to see a little sport now and then. I don't suppose there's another green thing in New York that sees as much of gay life unless it's the chartreuse

The "HEPPELWHITE" Design 1801—in Twin Pair

Is the old-style metal bed as cheap as it looks

THE thoughtful housewife admits that many an apparent "saving" proves anything but economical in the end.

One of the poorest of these false economies is the cheap metal bed. Unsteady, noisy its rattle and squeak defeat the very purpose of a bed, preventing complete relaxation.

A Simmons Metal Bed will cost you just about what you would expect to pay for a "high grade bed."

For sleeping quality there is nothing to compare with it. Nothing so steady and noiseless -nothing that so entirely invites nerve and muscle to relax, promoting deep, natural sleep.

In every room shared by two persons, Twin Beds, by all means! One sieeper does not disturb the other or communicate colds or other infections.

And you will find nothing so exquisite as the charming Simmons designs, such as-

The Letters of Tessie and Joe

Joe is a traveling salesman. Tessie is his loving wife. Follow their letters in The OAKLAND TRIBUNE

I consumed your ever welcome letter with my coffee this morning and enjoyed it, and I'm only sorry I can't say as much for the coffee. This hotel life wouldn't he half so bad if it wasn't for the food and the sleeping accommodations. Joke. Oh, for a good strong cup of home brewed coffee made by your own fair hands, though to give the devil his due I remember there wasn't no medals on your coffee for some time after we were first married. Half the time it was so thin it was undrinkable and the other half it was so thick it was uneatable.

Nothing but strikes in the papers these days. To hear people talk, everybody realizes the thing this country needs is to get more work done, but the trouble is they're all modestly loafing so somebody else can get the credit. Or else maybe we're all acting on the principle that if we do less work somebody else has got to do more. It might be a good system if the entire population hadn't all thought of it at the same time.

I'm glad you told me about your Cousin Grace's newlaid husband being

in the insurance business because it gives me this opportunity to warn you to lay off of that family from now on, even in a social way, as an insurance man is absolutely devoid of conscience when it comes to combining business with pleasure and I'm carrying all the insurance right now that I care to.

I am sending the baby, a child size tooth brush with bristles and handles all complete because he's bound to come across with a tooth any day now after all those false alarms and the sooner he learns to use a tooth brush the better he'll get along in the world in after years. A winning smile is a great help to success in life, both in the movies and out, and after a certain early age you can't have a winning smile without teeth. Yours as ever,

THIS 'RAPPING, TAPPING,' DONE BY HUNGRY DOG

Cochran of 1618 Sherman street can fully appreciate the feeling can fully appreciate the feeling of Edgar Allen Poe when the latter wrote "The Raven." The mysterious scratchings of the Raven were almost duplicated at Cochran's door last night. He was alone at the time and reading. Suddenly he heard a faint appreciate the street of scratching and then a tapping at the back door. He peered out through the window but could see no one. Visioning burglars at work, he telephoned the police department. Policeman Martin O'Keefe was sent out to investigate.

Instead of burglars O'Keefe found a half-starved dog which was crouched on the back porch of Cochran's home. It was the scratching of this animal that had caused Cochran's fright.

PANSIES, TULIPS TO FORM DESIGN ON CITY PLAZA

The Oakland City Hall Plaza is going to be a riot of color and a perpetual advertisement to the scenic beauties of Oakland soon. The present design in the middle of the grass plot, will be made regular and beautified into the shape of a star or something, according

to the Park Board. ' The present "design" just naturally grew by accident, it is asserted, and gradually formed itself as flowers were planted or taken

There are many high buildings around the plaza whose occupants look downward and make comments upon the irregularity of the fioral layouts and wonder what the

design is supposed to represent.
According to decision of the
Park Board, limited, however, to a
slim appropriation, the plaza will be kept as colorful as possible hereafter. Pansies will be planted immediately, just as 15,000 stock will come to bloom, and then 12,-000 mixed tulips will make the place gladsome during the late

A RECORD OF LOSSES

A search of history will fail to disclose any period in which as many manities and stupid mistakes in the conduct of international affairs were committed as that period beginning March 4 1913, and ending with the present. In no other feats and so great and grievous losses of advantage and prestige as during the administration of tion of signatures to initiative petitions.

The story of our relations with Mexico and the brutal outrages of the last seven years is a shameington to any bandit who wished to invade American territory, or murder an American citizen or steal American property has been too often and too peignantly told to permit forgetfulness so

In the Far East the story of President Wil son's foreign policy has been one of repeated abandonment of American interests and repudiation of American rights and privileges. In the agreement which Mr. Lansing concluded with Viscount Ishii in 1917 The position of Japan as the dictator of foreign activities in China was tacitly recognized, which meant surrender of the right of independent action on the part of the United States in many vitally important phases. At The At II The 17 of a line whilehold the count

agreements between Japan and England by which those two countries divided the control of the Pacific, except that small portion constituted by Hawnii and the Philippines. American busiiess interests in Turkey, Syria and Mesopolamia were abandoned to the tender mercies of Great Britain and France and a hint of what this abandonment will mean is given by the agreement of San Remo between the French and British premiers for the exploitation of the oil resources of the Near East.

But the sorry tale is not complete when the losses abroad are recited. We now observe President Wilson abandoning America at home to the selfish schemes of foreign nations. He yields to the expected protests of Great Britain and Japan and refuses to administer the merchant marine Act of Congress.

What dismal cynicism in the act of the Secre tary of State in requesting information of Great Britain and France regarding their pact of San Remo regarding oil lands in foreign countries when the administration refuses to protect American merchant ships in their lawful rights to carry American cargoes on the high seas at such rates as they may determine to be fair and equit able and declines to preserve the right of the American government to impose any import tariff it may elem to impose!

The fact that a national political campaign now is being conducted may lead the people to take the criticisms of the President in these matters less seriously than they ought. But when they come finally to realize the real significance of one surrender after another, of the open flout ing of the law and the rejection of the sentiment of Congress and the people regarding the vital domestic problem of a merchant marine, they will look back upon the last seven years with humiliation and regret.

SLACKER LIST REQUESTED

It should not have been necessary for the American Legion in its national convention at Cleveland to call upon the Secretary of War to publish the name of slackers and draft dodgers. What Science Does to "Cure" Dread Locomotor Ataxia

B7 Dr. LEONAND K. HIRSHBERG. A. B., M. A., M. D. (Johns Hopkins University.)

A serum obtained from patient's own blood is claimed by Professor Odin of the Pasteur Institute to be a positive cure for all cases of paresis, locomotor-ataxia and tabes. Dr. Odin has been engaged in this research for more than seven years, in the course of which he made more than a thousand experiments.

Two hundred and sifty centimetres or 10 ounces of blood are taken from serum and red corpuscles and a portion of each is heaten several times to various temperatures. The patient is inoculated with the resulting serum and cures are claimed in almost every instance. The injections are made either into muscular tissues or into the spinal fluid itself. No drugs nor other methods are

used, and there is said to be no Salvarsanized scrum and mercur-

Judge Ostrander then left the courtroom, but was called back and Kazaka was charged with the sec-ond offense. The complaint against Kazaka alleges that he and two others beat down Ritchhart on East Fourteentth street with a blackjack and then struck him while he was lying on the ground. The date of trial was set for October 2.

Antone Vargas, charged with lar-ceny in the home of Mrs. M. Jacobucci, went on the stand today in his own defense, and alleged that Mrs. Jacobucci gave him money and represented that he was her husband to collectors and others.

DISCHARGED PLAYER WILL TALK IF BILL RUMLER IS CLEARED

Everybody Is Bluffing About Quitting P. C. L. and Everybody Else Knows It.

The Coast League directors in meeting assembled today will review the case of Bill Rumler, suspended Salt Lake outfielder, but the notorious "Babe" Borton case will only be mentioned.

According to present plans, the alleged "slush fund" raised by the Vernon players will be investigated in a Los Angeles courtroom when Borton and Essick meet with a superior judge as referee. Comes now Harl Maggert, outfielder, who received his unconditional release from the Salt Lake club, following the Borton exposure. Maggert asserts Rumler is as guilty as he is and that it ill behooves the Coast League directors and the Salt Lake baseball club to make flesh of one and fowl of the other.

I. MARY'S POSSESSES A COMPLETE SET *ALL HAWAIIAN BACKS*

Opposition Befuddled When Mid-Pacific Boys Start Shouting Signals in Native Tongue.

Coach Powell of Stanford may have a fotball problem in his E game with Saint Mary's Saturday afternoon that it will take a prefessor of languages to solve. For when the Saints line up against the Stanford boys, from present indications, they will present an 120 entire Hawaiian backfield, and the boxs from the Islands are not, 90 conly fast and shifty, but they have the habit of shouting plays at one another in their native tongue, a habit disconcerting to the op-'s posing team. Kauhane, who secured his football knowledge at Punahou Academy, is a fixture at left half, and Decker, from the same academy, is almost sure to start at quarter. Clarence Lane, 1 the sprint swimmer, from Kamehameha Military Academy, has been in picked to hold down right half, and if Myles, of the All-Hawaiians, continues to improve in punting and in forward passing as he has the past few days in all likelihood he will go in as full back. At Kennedy, of the period in Saturday's contest against the Mare Island sailors, the Agenta, of the Careney's continued on the field at the same time, and white the period of t when the boys from the Mid-Pacific started shouting directions in Hawaiian, the seamen were more than befuddled. If Hollander Louis, p. 16 Lewis, p. 17 Lewis, p. 18 Lewis, p. can teach Hawaiian to his line he can go down in history as the first coach to perfect a system of signals that could not be detected.

LEAGUE LEADERS LESS THAN FOUR GAMES IN FRONT OF LOS ANGELES

Seals Showing Phenomenal Burst of Speed in South; Harry Krause Is "Wonder Man"

By EDDIE MURPHY

Have you had time to glance at the standing of the clubs in the Coast League race in the last few days? The Seals have started out by grabbing the first two games from the league leading Vernon Tigers and they are only three and a half games from last year's champs. After the way the Seals finished up their series with the Angels last week, it was thought that the Tigers would increase their lead this week at the Seals' expense. But as things have broken thus far, it looks like the Tigers will be doing well at the end of the present series to retain the lead they had before bumping into the Seals. The Seals started out with a hig burst of speed so often only to fade away, the fans will not take much stock in their spurt against the Tigers until the present series is over.

Leonard and Britton Go Ten Rounds At Cleveland Ball Park

CLEVELAND. O. Sept. 30.—Denny Leonard, lightweight champion, and Jack Britton, holder of the welter-weight title, will meet at League Park tonight. The bout is scheduled to go ten rounds. Tommy McGinty, the matchmaker, will referee. Leonard expected to weigh about 136 pounds ringside. The weiterweight reported he weighed 140 pounds early today and said he would have no difficulty entering the ring at 145 as prescribed in the agreement. in the agreement,
Loonard was a 10 to 8 favorite and
betting was at odds of 1 to 3 that
he would knock out Britton.

Changes Among Standard Shares Not Significant

NEW YORK, Sept. 30. -- The Evening Sun financial review this afternoon said:

Today's stock market was again characterized by heaviness in the industrial shares and firmness in the rails as a general description of its aspects. As a matter of fact, however, there was no very significant change among standard issues. Cracible Steel proved to be the star performer of the early session. It opened more than five points up, advanced three points further to 135 and then relapsed into relative quiet at from 131 to 132. Increased buying power came into the market in mid-afternoon,

but whereas it seen petered out so far as industrials were concerned it gained impetus among the rails. which netted advances of one to two points in a few instances more. Motors displayed growing weakness.

Figures have been Issued by the publicity department of the Southern Pacific railroad here bearing on efforts of that railroad to meet the conditions of car shortage and showing the results of the campaign for better loading and higher car mileage. The figures, which were prepared in the office of J. H. Dyer, general manager of the Southern Pacific for the unblicity department, show that in May, June and July there were loaded 220.512 cars of commercial freight with an average load of 23. Jons for each car, an increase of 14 to so over the same period in 1919 of 51.319 to May, June and July of 1920 was below 5 per cent.

The southern Pacific is handling a larger gross tunnage this year than ever in 18 history. During the months of May, June and July 1920, the total gross tunnage this year than ever in 18 history. Those Curtains— Do They Need Washing?

For months now your curtains have been gathering dust and soot, for windows have been opened wide to invite summer's breezes. Soot and dust — only too well you realize how they cling and stain. Wouldn't this be a good time to rout them, before they work too deeply into your curtains to be washed out?

We make a specialty of washing curtainscretonnes, lace edged, and filet nets. Our soft water and creamy suds make them as fine, bright and filmy as new.

And we dry them better than could any laundress. Every curtain is measured before we launder it. When it is ready for drying we place it on a special frame of exactly the same measurements.

You'll find no end of satisfaction in sending your curtains to us. Just give them to our route representative when he calls for your family washing.

Police Arrest Idlers in Raid On Pool Rooms

The police this morning arrested everal hangers on at three downthe standing order issued by Chief of Police J. P. Lynch several months ago to rid the city of idlers and vagrants who spend their time loafing about questionable resorts. Those arrested today were charged

with vagrancy, In a statement today Captain of Police B. A. Walliam declared that the arrests this morning resulted from the report the several narcotic pedalers and suspicious characters were hanging about the pool rooms of late. He said:

"We intend to make a thorough clean-up of the city. Fome of the peol rooms are rendezvouses for criminals and drug peddlers and the sooner we make these people understand that they are not want-
